APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 36514, Certificate 11133 is issued subject to the terms and conditions imposed in said Permit 36514, Certificate 11133 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Permits 36512, Certificate 11131; 44593, Certificate 12461; 44594, Certificate 12462; 44595, 44596, 63692, 63693 and 63694 shall not exceed 290.3 million gallons annually.

Any well drilled under Permit 36514, Certificate 11133 shall be plugged in accordance with the Nevada Administrative Code, Chapter 534.420, "Regulations for Water Well and Related Drilling" within 60 days from the issuance of this permit.

The permittee shall report to the State Engineer on a quarterly basis the effect of pumping the well under this permit on other previously existing wells that are located within 2,500 feet of the well under this permit.

Any pumping of water under this permit may be limited or prohibited to prevent any unreasonable adverse effects on an existing domestic well located within 2,500 feet of the well under this permit, unless the holder of this permit and the owner of the domestic well have agreed to alternative measures that mitigate adverse effects.

The quarterly report shall also include the amount of water pumped on a monthly basis from each well serving the described place of use.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.1237 cubic feet per second, but not to exceed 21.521 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

January 23, 2001

Proof of completion of work shall be filed before:

February 23, 2001

Application of water to beneficial use shall be filed on or before:

January 23, 2004

Proof of the application of water to beneficial use shall be filed on or before:

February 23, 2004

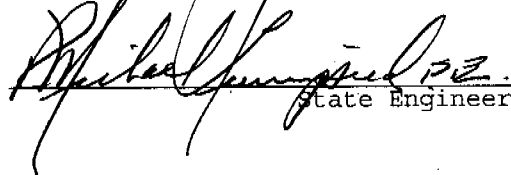

Map in support of proof of beneficial use shall be filed on or before:
